

Emb 101: Collared Shirt Supply List

Collared shirt (This is practice – bring an old one or one from a second hand store. This shouldn't have a busy print)

80 Embroidery Needle

200 x 200 or larger embroidery hoop

Viking or Pfaff Embroidery machine with all cords and supplies (Q foot, single hole stitch plate)

Assorted Rayon threads for your design

Full Bobbin with thread to match your shirt (We want the back to blend and be hidden – polyester is fine)

Basic sewing supplies: Pins, clips, scissors, marking pen, ruler

Before class, pick a design from your machine that is not larger than your collar area to be stitched. Use your small design menu (Epic 3 or Menu N in other machines). You may also do a monogram using 10mm and 15mm fonts, ie: sSk.
